MIFID II product governance / Retail investors, professional investors and Eligible Counterparties – Solely for the purposes of the manufacturer's product approval process, the target market assessment in respect of the Notes has led to the conclusion that: (i) the target market for the Notes is eligible counterparties, professional clients and retail clients, each as defined in MiFID II; and (ii) all channels for distribution to eligible counterparties and professional clients are appropriate; and (iii) the following channels for distribution of the Notes to retail clients are appropriate - investment advice, and portfolio management, and non-advised sales and pure execution services, subject to the distributor's suitability and appropriateness obligations under MiFID II. The product is incompatible for any client outside the positive target market identified above. Any person subsequently offering, selling or recommending the Notes (a distributor) should take into consideration the manufacturer's target market assessment; however, a distributor subject to MiFID II is responsible for undertaking its own target market assessment in respect of the Notes (by either adopting or refining the manufacturer's target market assessment) and determining appropriate distribution channels, subject to the distributor's suitability and appropriateness obligations under MiFID II, as applicable.

		• as the Issuer is incorporated and has its centre of main interests in Luxembourg, insolvency proceedings with respect to the Issuer may proceed under, and be governed by, Luxembourg insolvency laws. The insolvency laws of Luxembourg may not be as favourable to investors' interests as those of other jurisdictions with which investors may be familiar and may limit the ability of Noteholders to enforce the terms of the Notes. Insolvency proceedings may have a material adverse effect on the Issuer's business and assets and its obligations under the Notes as Issuer.
		The significant risks relating to NATIXIS include:
		The significant risks relating to the macroeconomic environment and financial crisis include:  • adverse market or economic conditions may cause a

- conditions in the financial markets, particularly the primary and secondary debt markets, may have a significant negative effect upon NATIXIS; and
- NATIXIS has suffered significant losses, and may continue to suffer losses, on its portfolio of assets affected by the financial crisis.

- NATIXIS' ability to attract and retain qualified employees is critical to the success of its business and failure to do so may materially affect its performance;
- future events may be different than those reflected in the assumption used by the management in the preparation of NATIXIS' financial statements, which may cause unexpected losses in the future;
- market fluctuations and volatility may expose NATIXIS to the risk of losses in relation to its trading and

investment operations;

- NATIXIS may be vulnerable to political, macroeconomic and financial environments or specific circumstances in the countries where it does business;
- NATIXIS is subject to significant regulation in France and in several other countries where it operates; regulatory actions and changes in these regulations could adversely affect NATIXIS' business and results;
- tax law and its application in France and in the countries where NATIXIS operates are likely to have a significant impact on NATIXIS' results;
- despite the risk management policies, procedures and methods put in place, NATIXIS may be exposed to unidentified or unanticipated risks, likely to give rise to significant losses;
- the hedging strategies implemented by NATIXIS do not eliminate all risk of loss;

- a prolonged fall in the markets may reduce the liquidity of assets and make it more difficult to sell them. Such a

			situation could give rise to significant losses.
D.3 / D.6	Key risks regarding the Notes / Risk Warning	•	risks regarding the Notes include: By investing in the Notes, investors must rely on the creditworthiness of the relevant Issuer (and in the case of Notes issued by Natixis Structured Issuance SA with the benefit of the NATIXIS Guarantee, NATIXIS) and no other person.
			Conflicts of interest may arise between the Issuers and any of their affiliates, on the one hand, and Noteholders, on the other.
			Certain of the Dealers and their affiliates have engaged, and in the future may engage, in investment banking, commercial and/or lending transactions with the Issuer and/or the Guarantor and their affiliates, which may result in consequences that are adverse to an investment in the Notes.
			The initial Aggregate Nominal Amount may not reflect the future liquidity of the Notes.
			Any early redemption at the option of the Issuer is likely to have negative effect on the market value of the Notes and could cause the yield anticipated by Noteholders to be considerably less than anticipated.
			A Noteholder's effective yield on the Notes may be diminished by the tax impact on that Noteholder of its investment in the Notes.
			The conditions of the Notes contain provisions for calling meetings of Noteholders which permit defined majorities to bind all Noteholders who did not attend the and vote at the relevant meeting as well as Noteholders who voted in a manner contrary to the majority.
			The Notes are governed by English law, in effect as at the date of this Base Prospectus and no assurance can be given as to the impact of any possible judicial decision or change to English (or any other relevant) law after the date of this Base Prospectus and any such change could materially adversely impact the value of any Notes affected by it.
			Under the terms of the Notes, the Issuer is obliged to make payments of principal and interest free and clear of Luxembourg withholding taxes only. To the extent that withholding tax is imposed on payments of principal and interest under the Notes in any jurisdiction other than Luxembourg Noteholders will receive payment only after imposition of any applicable withholding tax.
			U.S dividend equivalent withholding may affect payments on the Notes.

- The proposed financial transactions tax (FTT) would impose FTT on each financial institution that is party to certain financial transactions. A person transacting with a financial institution which fails to account for FTT would be jointly and severally liable for that tax.
- The implementation of the Banking Resolution and Recovery Directive (the BRRD) and its incorporation into French law and Luxembourg Law, or the taking of any action under it, could materially affect that value of any Notes.
  - Among other measures under the BRRD, resolution authorities have the power to write-down the claims of unsecured creditors of a failing institution and to convert certain unsecured debt claims (including Notes) to equity, such equity being potentially subject to future cancellation, transfer or dilution by application of the general bail-in tool. The resolution authority must first reduce or cancel common equity tier one, thereafter reduce, cancel, convert additional tier one instruments, then tier two instruments and other subordinated debts to the extent required and up to their capacity. Only if this total reduction is less than the amount needed, the resolution authority will reduce or convert to the extent required the principal amount or outstanding amount payable in respect of unsecured creditors in accordance with the hierarchy of claims in normal insolvency proceedings.
- French credit institutions (such as NATIXIS) must comply at all times with minimum requirements for own funds and eligible liabilities (the MREL) under Article L.613-44 of the French Code monétaire et financier. The MREL is expressed as a percentage of total liabilities and equity of the institution and aims to prevent institutions to structure their commitments in a manner which could limit or prevent the effectiveness of the bail-in tools.
- The BRRD was implemented by the Luxembourg act dated 18 December 2015 (the **BRR Act 2015**). Natixis Structured Issuance SA, as a credit institution established in Luxembourg and a subsidiary indirectly owned 100% by NATIXIS, is subject to the BRRD as implemented by the BRR Act 2015.
- The Benchmark Regulation could result in an adjustment to the terms and conditions of the Notes, early settlement, valuation by the Calculation Agent, delisting or other consequences, depending on the specific provisions of the relevant terms and conditions applicable to the Notes.
- Green Bonds Investors' attention is drawn to the fact

that the Issuer and the Dealers give no assurances on (i) the characteristics of the Eligible Green Assets, including their environmental and sustainability criteria, (ii) whether Eligible Green Assets will be identified and available for an investment by NATIXIS and accordingly whether the net proceeds will be effectively used for Eligible Green Assets at inception or throughout the life of the Green Bonds, or (iii) whether the Green Bonds will indeed meet certain environmental, climate and/or sustainability criteria and in particular any investor's criteria and expectations with regard to environmental or climate impact and sustainability performance.

- Unforeseen events can interrupt the Issuer's operations and cause substantial losses and additional costs.
- The Issuer is exposed to credit risks of other parties.
- An interruption in or breach of the Issuer's information systems may result in lost business and other losses.
- It may not be possible for investors to effect service of process on the Issuer, its directors and executive officers within the United States or to enforce against any of them in the United States courts judgments obtained in United States courts.

#### **Structured Notes**

- the market price of the Notes may be volatile;
- the Notes may receive no interest;
- payment of principal or interest may occur at a different time or in a different currency than expected;
- investors in the Notes may lose all or a substantial portion of their principal;
- the underlying of the Notes may be subject to significant fluctuations that may not correlate with changes in interest rates, currencies or other indices;
- the timing of changes in an underlying of the Notes may affect the actual yield to investors, even if the average level is consistent with their expectations; and
- neither the current nor the historical value of the underlying of the Notes may provide a reliable indication of its future performance during the term of any Note.

#### Foreign currency bonds

As purchasers of foreign currency bonds, investors are exposed to the risk of changing foreign exchange rates. This risk is in addition to any performance risk that relates to the Issuer or the type of Note being issued.

#### **Index Linked Notes**

Exposure to one or more indices, adjustment events and market disruption or failure to open of an exchange may have an adverse effect on the value and liquidity of the Notes.

Key Risks relating to the NATIXIS Guarantee

- The scope of the NATIXIS Guarantee is limited to Financial Instruments (as defined in the NATIXIS Guarantee) of Natixis Structured Issuance SA. The NATIXIS Guarantee is not limited to Natixis Structured Issuance SA's obligations under Notes issued by it under the Programme.
- The NATIXIS Guarantee is not a 'first demand' guarantee. Any claim under the NATIXIS Guarantee must be sent in writing by a duly authorised officer of the claimant to Natixis Structured Issuance SA in accordance with the NATIXIS Guarantee.
- A revocation of the NATIXIS Guarantee could affect the creditworthiness of Natixis Structured Issuance SA.
- Noteholders are also exposed to NATIXIS's credit risk under the NATIXIS Guarantee.
- The NATIXIS Guarantee is governed by French law and enforcing rights under it may be more difficult than enforcing a Luxembourg law governed guarantee.

There are no negative pledge or other covenants or events of default in relation to, or undertaken by, NATIXIS under the Notes or the NATIXIS Guarantee.

The key risks regarding the market generally include:

- The Notes when issued have no established trading market and one may never develop. Investors may not be able to sell their Notes easily or at prices that will provide them with a yield comparable to similar investments that have a developed secondary market.
- The trading market for debt securities may be volatile and may be adversely impacted by many events.
- Following the United Kingdom's vote to leave the European Union there are a number of uncertainties in connection with the future of the UK and its relationship with the European Union.
- As a result of fluctuations in exchange rates or the imposition of exchange controls, investors may receive less interest or principal than expected, or no interest or principal.
- Any credit ratings that may be assigned to the Notes may not reflect the potential impact of all risks related to, *inter alia*, the structure of the relevant issue, the relevant market for the Notes and other factors that may affect the

value of the notes
<ul> <li>Legal investment considerations may restrict certain investments; investors and financial institutions should consult their legal and/or financial advisors and/or the appropriate regulators to determine the appropriate treatment of Notes under any applicable risk-based capital or similar rules.</li> </ul>
Holders of Notes may not receive definitive Notes in certain circumstances and may need to purchase a principal amount of Notes such that it holds an amount equal to one or more Denominations in order to receive definitive Notes.
Investors may lose the value of their entire investment or part of it, as the case may be. (only applicable for Element D.6)
